ORGANISATION
INTERNATIONALE DE
la francophonie

FrancoTech 2026 stands as the flagship economic and technology side event of the 20th Francophonie Summit, taking place in Phnom Penh, Cambodia, from 14–16 November 2026. Following on the success of FrancoTech 2024 in France, this second edition will bring together governments, companies, investors, startups, and innovation leaders from across the Francophone world to foster business opportunities, technology exchange, and economic cooperation in Cambodia, a fast-growing digital economy and gateway to ASEAN dynamic market.

Under the theme, “**One Francophone Community, One Digital Future,**” FrancoTech 2026 reflects a shared vision to unite the Francophone community through future-ready technology and collaboration — advancing digital sovereignty, inclusive growth, peaceful cooperation, and impactful cross-border partnerships across the Francophone world and beyond.

FrancoTech offers a unique platform to connect with decision-makers, explore investments, and showcase emerging technologies and solutions to the Francophone world—while building partnerships and strengthening visibility. Featuring an Innovation Village, exhibitions, an investment forum, B2B matchmaking, and roundtables, the event drives meaningful dialogue and tangible business outcomes.

Join FrancoTech 2026, the largest Francophone technology fair, on November 14–16 at the Koh Pich Convention and Exhibition Center in Phnom Penh, and connect with 200+ exhibitors, 90 government delegations, global innovation leaders, and 5,000+ visitors.

MAIN OBJECTIVES

FrancoTech 2026 is organized with the purpose of harnessing the collective strength of the Francophone community to stimulate economic exchange, foster innovation, and showcase entrepreneurial excellence across the Francophone world. In the context of rapid digital, social, and economic transformation, FrancoTech 2026 is centered around four key objectives:

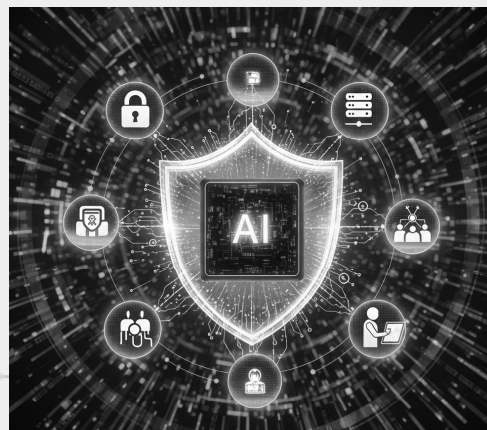

Strengthening Economic and Technology Diplomacy: leveraging the momentum of the Francophonie Summit to foster tangible collaborations, while positioning Cambodia as a key player within the Francophone community and a strategic hub linking trade and innovation between the Francophonie and ASEAN.

Attracting Foreign Direct Investment (FDI): The presence of leading technology companies and high-level delegations from 90 Francophone countries creates a strategic opportunity to strengthen business engagement, accelerate investment decisions, and foster operational partnerships within the ASEAN region.

Digital Transformation: Showcasing human capital and Digital Public Infrastructure (DPI) as strategic foundations for accelerating digital transformation and advancing Industry 4.0 across the Francophone community. For instance, Cambodia has already deployed several flagship DPI initiatives, including Verify.gov.kh platform, the Bakong payment system, the CamDX data exchange platform, and Digital ID, etc.

Digital Sovereignty: Promoting a responsible and inclusive digital governance framework that upholds ethical standards and cultural diversity in the development and application of Artificial Intelligence (AI).

EVENT DETAILS

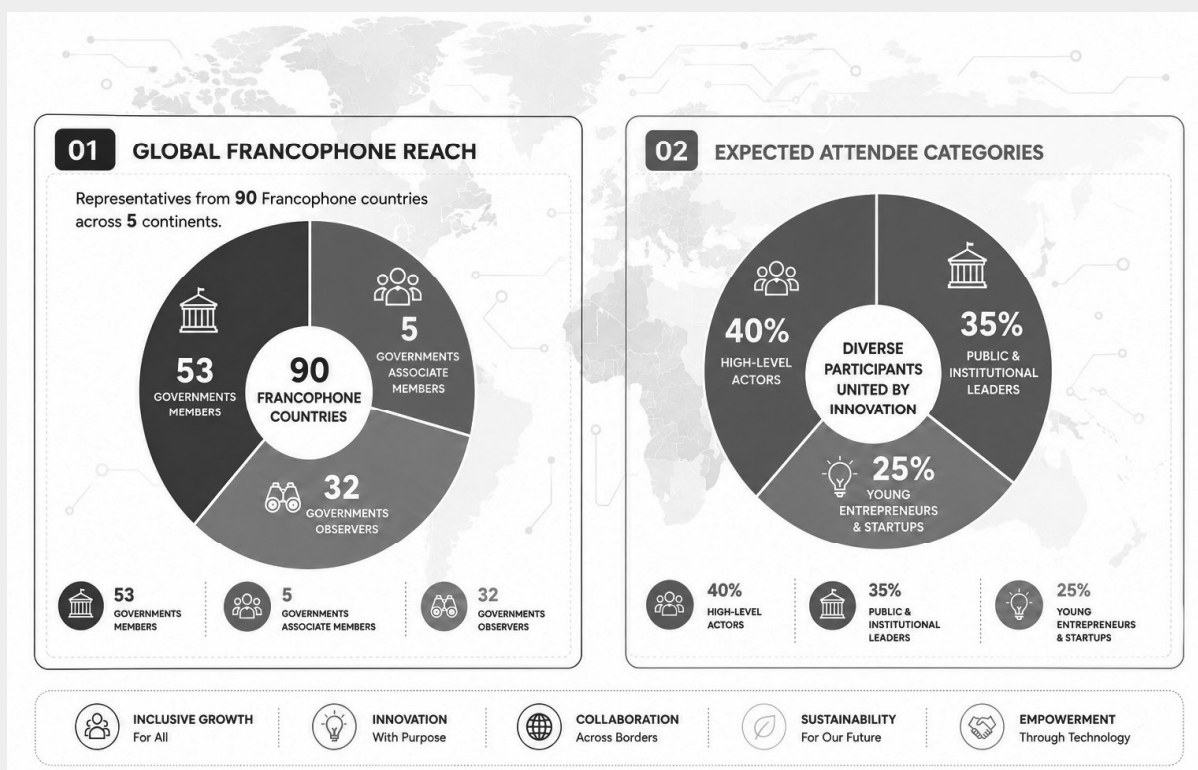

WHAT TO EXPECT AT FRANCOTECH

- High visibility at a key event alongside the XXth Summit of La Francophonie, attracting over 5000 visitors with 110 booths focused on tech innovation.
- Connect with Francophone leaders, startups, and partners through B2B meetings, investment sessions, and more.
- Gain access to Cambodia and Southeast Asia's dynamic market by meeting local businesses.
- Engage in enriching panel discussions over two days covering the digital economy with expert speakers sharing global insights.

ROUNDTABLE DISCUSSION

7 THEMES, 7 OPPORTUNITIES, 1 SHARED FUTURE

Driving Innovation, Inclusion & Sustainable Growth
across the Francophone World.

TOGETHER, WE BUILD A SMARTER, MORE INCLUSIVE
AND SUSTAINABLE FRANCOPHONE FUTURE.

OVERVIEW OF FRANCOTECH 2026

The FrancoTech event is scheduled to take place over 3 days (November 14-16, 2026) in Phnom Penh, featuring the following key activities including:

Roundtable Discussion	Innovation Village Exhibition	Innovation Competition	Investment Session Forum	B2B Match-making
A high-level dialogue bringing together policymakers, industry leaders, and experts to exchange insights, address challenges, and shape strategic directions for innovation and digital transformation.	An interactive showcase of cutting-edge technologies, digital products, and solutions, highlighting the creativity and potential of startups, enterprises, and innovators across the Francophone ecosystem.	A platform for startups and innovators to pitch their groundbreaking ideas, gain visibility, and compete for recognition, support, and opportunities to scale their solutions.	A targeted forum connecting entrepreneurs with investors, facilitating meaningful discussions, deal-making opportunities, and pathways to funding and business growth.	A dedicated platform that connects businesses, entrepreneurs, and organizations to build partnerships, explore collaborations, share expertise, and unlock cross-border business opportunities.
